PROFILE

I am a Software Engineering student with experience in both frontend and backend development. I focus on creating efficient technological solutions, emphasizing code quality and application performance. My ability to quickly learn new technologies and collaborate in multidisciplinary teams enables me to tackle complex challenges and provide practical, innovative solutions.

EXPERIENCE

- 01/2022 - 06/2022** • Website Development for Dental Program
Pasto
Universidad Cooperativa de Colombia - Pasto Campus
Dental Program
 - I participated in the design and development of an interactive website for dental education in collaboration with the Universidad Cooperativa de Colombia, Pasto Campus. The site facilitated access to educational materials on dental procedures and tools, with my role encompassing frontend development.
- 2022 - 2024** • Freelance Developer
Pasto
Binance
Freelance in Web and Mobile Development
 - I worked with over 20 cryptocurrencies, developing complete websites that integrate both frontend and backend functionalities designed for informative and mobile applications. My primary focus was to create interactive and accessible platforms that facilitated easy viewing of key information about cryptocurrencies. Additionally, I implemented augmented reality features in mobile applications to enhance user experience through innovative technology and real-time data integration.
- 08/2024 - Present** • Mobile Application Development
Pasto
Universidad Cooperativa de Colombia - Pasto Campus
Software Development Program
 - I am currently developing a mobile application designed to assist truck drivers in planning and managing their routes. The app aims to improve travel efficiency by offering features such as route optimization, real-time tracking, and the visualization of recommended stops. My work includes both frontend and backend development, focusing on a user-friendly interface and intuitive features to ensure an effective user experience.
